## Instructions

If you're anything like us you'll know the rules like the back of your hand, if that's the case then you can stop reading and start playing right about now, consider this a fashionable expansion pack to the existing game.

If you've been living under a rock and missed the Cards Against Humanity boat the rules are simple: Each player picks 7 white cards (could be slightly more/less depending on the amount of players) The person who most recently checked their Instagram begins as the Card Queen and reads aloud a black card. The other players must then complete the phrase using their white cards and whoever submits the funniest or most controversial answer 'wins'.
